

## UltimaPro CompactFlash (CF) card 1066x

UDMA 7

64 GB

128 GB

256 GB

### INTRODUCTION

The Integral UltimaPro 1066x CompactFlash card is ideal for professional photography cameras. It features a read speed of up to 160MB/s\* (1066X) and write speed of up to 135MB/s\*, making it ideal for fast action and continuous burst photography. The CF card has a Video Performance Guarantee of 65 (VPG 65)\*. This will ensure that the video stream from a compatible DSLR, video and cinematic camera will be saved without interruptions that could cause problems with the quality of the video. This makes the card ideal for smooth, detailed 4K and Full HD video recording. The 1066x CF memory card is also UDMA 7 enabled for high speed file transfer for a productive workflow. The highest quality components are used to provide the customer the best price-performance ratio, in line with our ethos of quality and value.

### FEATURES

- Ultra-fast read and write speed - up to 160 MB/s\* read and 135 MB/s\* write
