

UltimaPro CompactFlash (CF) card 866x

UDMA 7

64 GB

INTRODUCTION

The Integral UltimaPro 866x CompactFlash card is ideal for professional photography cameras. It features a read speed of up to 130MB/s* (866x) and write speed of up to 105MB/s*, making it ideal for fast action and continuous burst photography. The CF card has a Video Performance Guarantee of 65 (VPG 65)*. This will ensure that the video stream from a compatible DSLR, video and cinematic camera will be saved without interruptions that could cause problems with the quality of the video. This makes the card ideal for smooth, detailed 4K and Full HD video recording. The 866x CF memory card is also UDMA 7 enabled for high speed file transfer for a productive workflow. The highest quality components are used to provide the customer the best price-performance ratio, in line with our ethos of quality and value.
